

Situation Report

07-07-10

670 U.S. Fish and Wildlife personnel are actively engaged in response to the Deepwater Horizon/BP Oil Spill.

Service personnel in Florida are coordinating with the Incident Command Center in Houma, LA for today's release of 32 pelicans at Fort DeSoto State Park near Clearwater, FL.

Oil was removed from the beach at McFaddin National Wildlife Refuge in Texas. Additional oil was not found during aerial and ground surveys. Shoreline monitoring will continue with plans to stage protective equipment on the upper Texas coast including Texas Point National Wildlife Refuge and Sea Rim State Park.

Morning flights were cancelled due to inclement weather. Oil was observed on and adjacent to the Chandeleur Islands in Louisiana during afternoon aerial operations.

By the Numbers

Personnel Involved

Overall personnel responding: more than 45,700

Response Vessels

Total vessels responding: more than 6,900

Boom Data

Total boom deployed: more than 1583 miles

Boom available: more than 622 miles

Oil recovered

Oily water recovered: more than 28.6 million gallons

Amount estimated burned: approximately 10 million gallons

Oil captured over last 24 hours: more than 1.04 million gallons

Dispersant

Surface dispersant used: 1.07 million gallons

Subsea dispersant used; more than 646,000 gallons

Total dispersant used: approximately 1.72 million gallons

Shoreline Impacted

Shoreline impacted over last 24 hours: approximately 484 miles of Gulf Coast shoreline is currently oiled—approximately 287 miles in Louisiana, 71 miles in Mississippi, 62 miles in Alabama, and 86 miles in Florida.
